

Transparent parts

Transparent parts

- Linaset has been a manufacturer of transparent optical parts for automotive lights for a very long time. Linaset was the first company in the Czech Republic to produce the first lightguide part for automotive lighting.
- In this presentation, we present a small part of the optical parts that we manufacture at Linaset.
- CF in the title of the photo stands for Clamping Force of the press machine on which the part is produced.

Transparent parts

- Jaguar XF Sportbrake,
- Arburg 570S 1600-400, CF 1.600 kN

- Seat Ibiza SE 310,
- Engel 500/300, CF 3.000 kN

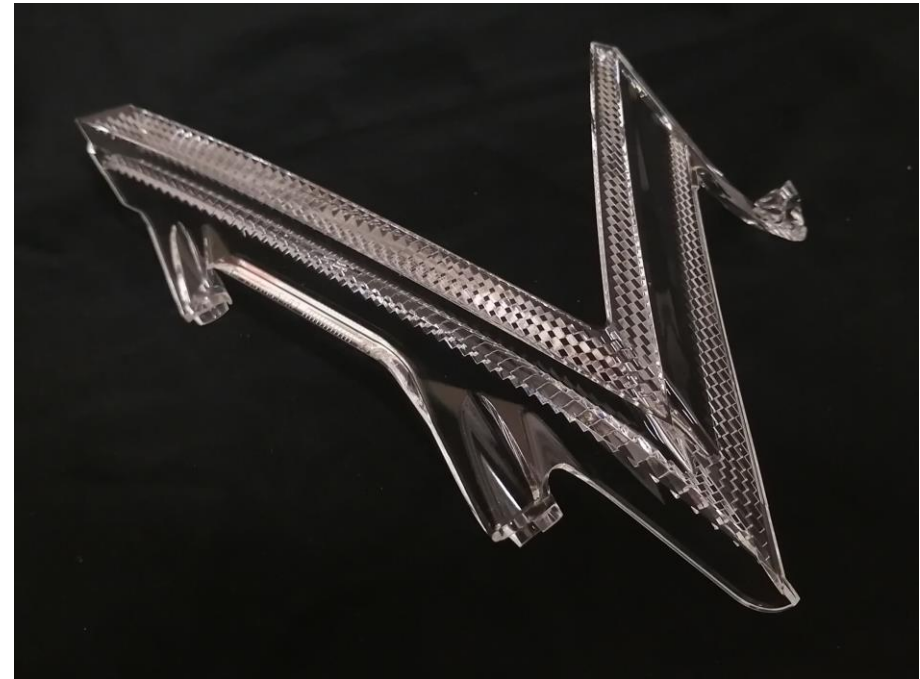

Transparent parts

- VW Tiguan Kaluga
- Engel ES 1350/300, CF 3.000 kN

- Skoda Octavia III
- Engel 2460/650, CF 6.500 kN

Transparent parts

- FIAT Abarth
- Engel ES 750/200, CF 2.000 kN

- Peugeot 3008 P84
- Engel ES 1050/300, CF 3.000 kN

Transparent parts

- BMW Z4 G29
- Engel 3550/700, CF 7.000 kN

- AUDI Q6
- Arburg 570S 2000-4000, CF 2.000 kN

Press machines for optical parts

- Linaset uses modern machines from manufacturers Arburg, Engel and Krauss Maffei for the production of transparent optical parts.
